BP Biological process
primary metabolic process e.g. protein metabolic process;...
multicellular organism development
transport
phosphate-contain compound metabolic...
regulation of cellular process e.g. regulation of metabolic process;...
signaling
cellular component organization
macromolecule metabolic process
CC Cellular component
membraneless organelle e.g. intracellular...
synapse
side of membrane
plasma membrane bounded...
supramolecular polymer
cytoplasm
membrane-bounded organelle e.g. intracellular membrane-bounded...
organelle lumen
membrane protein complex
plasma membrane
MF Molecular function
transcription regulatory region nucleic acid binding
transmembrane signaling receptor...
peptidase activity
passive transmembrane transporter...
signaling receptor activator...
heterocyclic compound binding e.g. nucleotide binding; purine...
transferase activity, transferring...
monoatomic ion transmembrane...
ion binding e.g. cation binding; anion binding; metal...
DNA binding
